Millage Caps for Local Governing Bodies under Code Section 6-1-320

Section 6-1-320 of Act 388, R417, House Bill 4449 from the 116th Session of the South Carolina General Assembly establishes millage caps for local governing bodies equal to the increase in the average of the twelve monthly consumer price indexes for the most recent twelve-month period consisting of January through December of the preceding calendar year, plus, beginning in 2007, the percentage increase in the previous year in the population of the entity as determined by the Office of Research and Statistics of the State Budget and Control Board. Act 57, R89, Senate Bill 367 from the 117th Session of the South Carolina General Assembly further clarified this Section by stating if the average of the twelve monthly consumer price indices experiences a negative percentage, the average is deemed to be zero. If an entity experiences a reduction in population, the percentage change in population is deemed to be zero.

Pursuant to this amended Code Section, the Office of Research and Statistics has recalculated the millage caps for counties, cities and school districts using a zero for any negative population changes. Following are charts detailing the millage caps for the counties, cities and school districts. Special purpose districts will have the same millage cap as the county of their location.
