

South Carolina Geodetic Survey
5 Geology Road
Columbia, SC 29212
803-896-7700

South Carolina Geodetic Survey (SCGS) is offering a text message option to notify customers if the South Carolina Real Time Network (SC RTN) is having any issues (as well as notifications received via email). If you have a cell phone with texting capabilities that you would like to receive future notices of SC RTN issues, send the cell phone number/provider to SCGS.

SC Geodetic Survey will not be responsible for any charges incurred to your phone for receiving these messages. We suggest you contact your provider to see if there is any expense on your end for receiving messages.

Fill out the information below if you would like to receive this service.

Cell Number(s) including area code to receive text messages:

Cell phone provider name (i.e. Verizon, AT&T, Cingular, etc):

Print name of company responsible for accepting any charges from receiving text messages to the above number(s):

Print name of person responsible for accepting any charges from receiving text messages to the above number(s):

Signature of person listed above

Date
