Fiscal Impact Summary

This bill is not expected to significantly impact State expenditures. All agencies surveyed indicated that either the costs associated with implementation would be minimal and could be absorbed or that there would be no cost to the agency.

Explanation of Fiscal Impact

Explanation of Amendment (February 3, 2015) – By the House

State Expenditure

This bill creates a 12-member Commission that is staffed by the Department of Natural Resources and includes representatives from six state agencies. The Commission is required to survey this and other states' litter collection practices, develop a strategic State plan for litter control, coordinate the efforts of all state agencies, and report to the General Assembly biennially. The amendment modifies the definition of the term public service work by substituting "includes" for "means" so that the definition of public service work includes participating in a litter removal program.

Department of Natural Resources. The Department reports that they have sufficient funding for one position to serve as staff to the Commission. Any travel and communications expenditures are expected to be minimal and would be absorbed.

Department of Transportation. The Department of Transportation reports that this bill will have minimal impact on agency expenditures that can be absorbed by the agency until a plan is

approved and passed by the General Assembly. If the litter committee sets parameters for litter mitigation that result in additional costs to DOT above current levels, and additional funding is not legislatively provided, then the expenditures will be absorbed by current DOT state maintenance funds.

Department of Corrections, Department of Public Safety, and Judicial Department. These agencies report that this bill will have minimal expenditure impact that can be absorbed by the agencies.

Department of Probation, Pardon and Parole. The Department indicates that this bill will have no expenditure impact on the General Fund, Federal Funds, or Other Funds.
