

## South Carolina Wireless 911 Fund – Flow Chart

Wireless and prepaid wireless subscribers in South Carolina pay a \$0.62 911 surcharge fee each month on their bill. The wireless service providers (retain 2%) and prepaid sellers (retain 3%) remit those funds to the Department of Revenue (DOR) every month. DOR completes an appropriation transfer of that money directly into the 4955-sub fund. The Revenue and Fiscal Affairs Office (RFA) receives a statement from DOR showing the total amount of money transferred. The money is divided into 3 portions, the PSAP Services portion (39.8%), Compliance Costs portion (58.2%), and the Board Operations portion (2%).

**PSAP Services** are distributed back to the PSAPs quarterly based on their number of wireless 911 calls for that quarter.

**Compliance Costs** are distributed back to the PSAPs based on cost recovery requests submitted by the PSAPs. PSAPs can apply for cost recovery of expenses involving the purchase of 911 equipment, upgrades to 911 equipment and maintenance on that equipment. The PSAPs must supply supporting documentation (bills, invoices, etc...) for the items eligible for reimbursement.

**Board Operations** is for auditing, administrative, legal, or other support services.
