NOTES:
1) Roads and statutory landmarks were positioned by various methods including use of South Carolina's RTN and a GPS rover, conventional surveying methodology, map compilation, historical aerial photography overlay, and GIS layers. Other jurisdictional boundaries shown are approximate and were not surveyed as part of this project.
2) Northing (N) and Easting (E) Coordinates, bearings, and distances, shown hereon, are referenced to the South Carolina State Plane Coordinate System 83/2011 Realization and have not been scaled to Ground. Coordinates are International Feet (iFT).
3) The purpose of this plat is to map a section of the Charleston-Colleton County Line. It is not intended nor should it be construed to be a boundary survey or boundary plat of the property parcels adjacent to or near the aforementioned county line. The Charleston-Colleton County Line and boundary lines of the adjoining properties may be congruent if and only if so specified by the South Carolina Legislative Act(s) that establish and describe or define the county line as it is being platted hereon. However, in no way is this survey or plat of this portion of the Charleston-Colleton County Line giving warranty to the title property boundaries of the adjacent parcels being shown or referenced hereon. Title property boundaries may have changed in more recent years, but the County Boundary changes through processes dictated in the SC Code of Law and ACT's of the General Assembly.

NOTES:

- 1) Roads and statutory landmarks were positioned by various methods including use of South Carolina's RTN and a GPS rover, conventional surveying methodology, map compilation, historical aerial photography overlay, and GIS layers. Other jurisdictional boundaries shown are approximate and were not surveyed as part of this project.
- 2) Northing (N) and Easting (E) Coordinates, bearings, and distances, shown hereon, are referenced to the South Carolina State Plane Coordinate System 83/2011 Realization and have not been scaled to Ground. Coordinates are International Feet (IFT).
- 3) The purpose of this plat is to map a section of the Charleston-Colleton County Line. It is not intended nor should it be construed to be a boundary survey or boundary plat of the property parcels adjacent to or near the aforementioned county line. The Charleston-Colleton County Line and boundary lines of the adjoining properties may be congruent if and only if so specified by the South Carolina Legislative Act(s) that establish and describe or define the county line as it is being platted hereon. However, in no way is this survey or plat of this portion of the Charleston-Colleton County Line giving warranty to the title property boundaries of the adjacent parcels being shown or referenced hereon. Title property boundaries may have changed in more recent years, but the County Boundary changes through processes' dictated in the SC Code of Law and ACT's of the General Assembly.
