Map of Spartanburg District by [signature]

**Note** - My measure is calculated from the vertical line, the last Post office, or Tavern, or wharf there is several near together, these I calculate from the most noted one; the Post roads and principal District roads have been surveyed and it rec'd. thereon the true line given to the vertical station; and the distance along the roads a number of roads of 1/2 m. each & there between the largest corner & there between to particular stations on the vertical line; of the District are given on the table, often times the table is stand for Tavern Post office for Mill, or for Creek or Church, the whole road were taken to be a track.
