p - projected figure

\* - 10% sample survey

\*\* - 20% sample survey

\*\*\* - Due to COVID-19, RFA was not able to conduct a sample survey. Since there is no historical data on how COVID-19 may impact private school enrollment, we are continuing to use the enrollment figures from the prior year's survey.

\*\*\*\* - Based upon preliminary data from some of the private schools, we anticipate flat growth for FY 2021-22. We are also assuming flat growth for FY 2022-23 since data are not available to determine the ongoing impact of the COVID-19 pandemic on overall private school enrollment.
